

Carbon Reduction Plan

Supplier name: Wetherby Training Ltd

Publication date: 16th June 2023

Commitment to achieving Net Zero

Wetherby Training Ltd is committed to achieving Net Zero emissions by 2050

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2023 – We have not previously assessed or reported emissions and will use our first reporting period as our Baseline – 1 st January 2022 to the 31 st December 2022.	
Additional Details relating to the Baseline Emissions calculations.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	669
Scope 2	75
Scope 3 (Included Sources)	We have not previously assessed or reported emissions and will use our first reporting period as our Baseline.
Total Emissions	744

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets:

- Reducing personal transport by car where possible, using cycle, train or public transport.
- Purchasing only Euro 6 HGV's and not operating any Euro 5 or below vehicles.
- Limiting distances travelled due to work activities and enabling more work to be carried out remotely.
- Ensuring that sources of light and heat with our workplaces is as low energy consuming as possible, replacing low efficiency items.
- Making use of more environmentally friend energy sources such as solar power where possible.
- The use of Bio-Diesel in our trucks and trialling the use of HVO fuel.
- Future investing in electric vehicles and installing electric vehicle chargers at our company sites.
- "No-Idling" policy and all vehicles fitted with devices that turn off the engine after 2 minutes of no vehicle movement.

We project that carbon emissions will decrease over the next five years to 372 tCO₂e by 2028/2029. This is a reduction of 50%

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standardⁱ and uses the appropriate Government emission conversion factors for greenhouse gas company reportingⁱⁱ.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standardⁱⁱⁱ.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
